Why Work With Us?

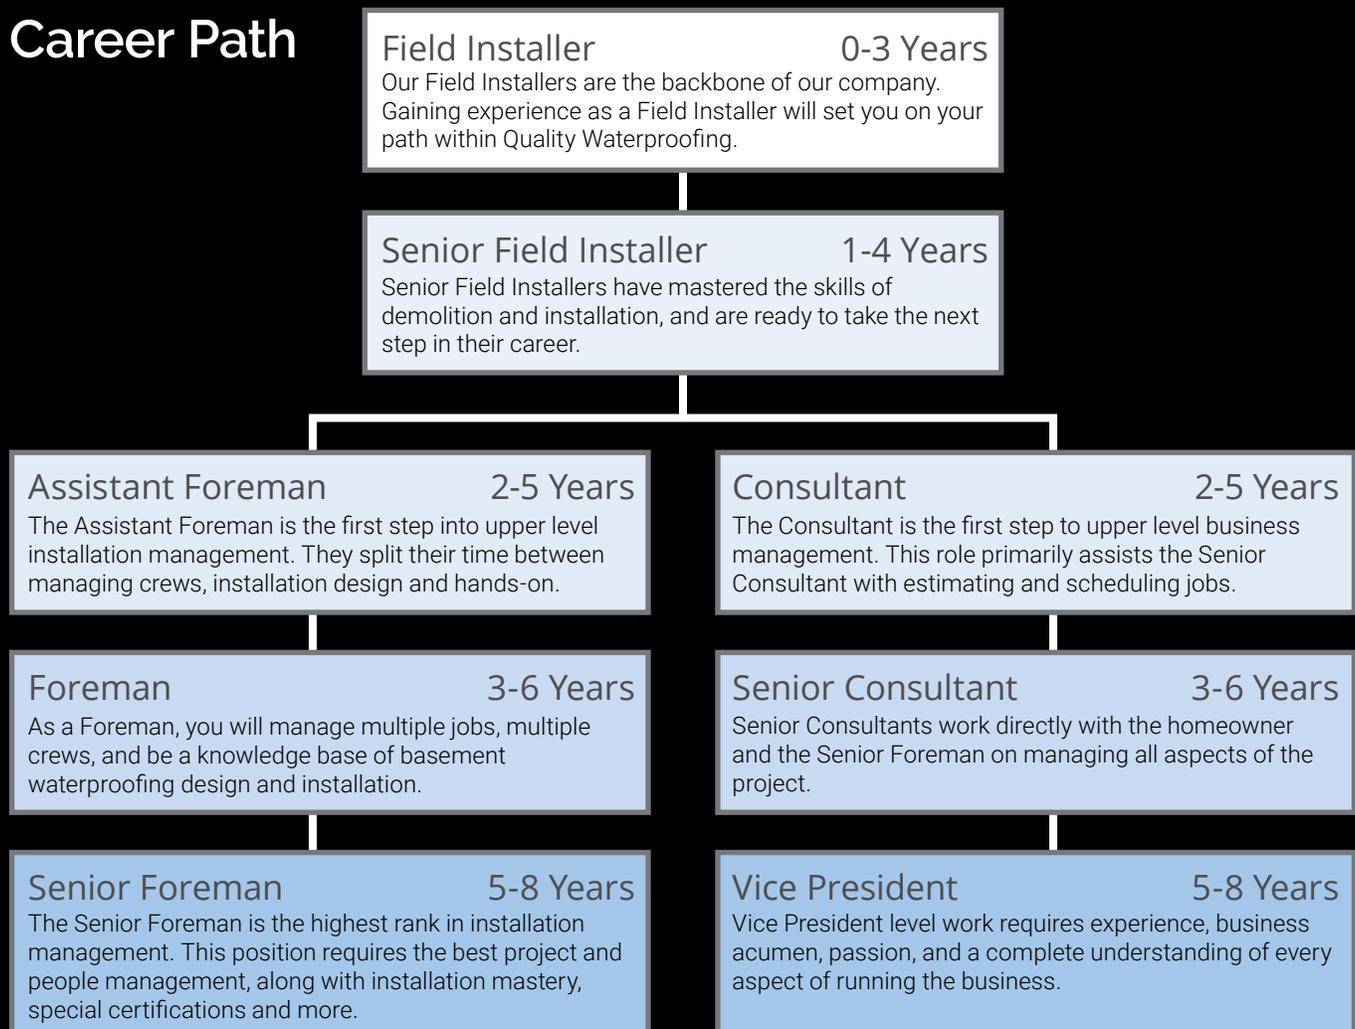

We are committed to both our customers and our employees. When you accept a position with Quality Waterproofing, you are taking on responsibility, hard work, the desire to learn, and ultimately a career you can be proud of.

Below you'll see the general career path Quality Waterproofing offers. The years of experience listed next to each position are suggested lengths of time. Your particular path and the duration spent at each level are determined by your goals and ultimately what you want to accomplish.

If you'd someday like to run your own business, whether in basement waterproofing or another specialized area, this path will give you exposure to the required skills including hands-on installation, demolition, installation design, estimating, sales, people management, customer service, and more.

With each step of advancement comes more responsibility and more financial reward.

Why Work With Us?

We are committed to both our customers and our employees. When you accept a position with Quality Waterproofing, you are taking on responsibility, hard work, the desire to learn, and ultimately a career you can be proud of.

Below you'll see two general career paths Quality Waterproofing offers. One is geared more toward hands-on, in the field installation and management, while the other focuses on dealing directly with the customer, understanding his or her needs, and giving great customer service.

When you start, you'll receive extensive hands-on training regardless of which path you choose. As you progress, you'll also be required to achieve certifications that will transfer and stay with you throughout your career. There may be some opportunity to change your path after you start - for instance, if you begin as an Account Associate but decide you'd rather be more hands-on, you can switch paths early on. Each path will give you the opportunity to learn everything you need to know to someday run your own business.

The years of experience listed next to each position are suggested lengths of time. Your particular path and the duration spent at each level are determined by your goals and ultimately what you want to accomplish.

As you advance, you will take on more responsibility, and most importantly, more financial reward.

Career Paths

Field Installer 0-3 Years
Our Field Installers are the backbone of our company. Gaining experience as a Field Installer will set you on your path within Quality Waterproofing.

Account Associate 0-3 Years
Account Associates generally assist Account Managers with their day-to-day tasks while learning how the business operates.

Senior Field Installer 1-4 Years
Senior Field Installers have mastered the skills of demolition and installation, and are ready to take the next step in their career.

Account Manager 1-4 Years
Account Managers take care of existing customer accounts. After a project is sold, the Account Manager becomes the homeowner's primary point of contact.

Assistant Foreman 2-5 Years
The Assistant Foreman is the first step into upper level installation management. They split their time between managing crews, installation design and hands-on.

Consultant 2-5 Years
The Consultant is the first step to upper level business management. This role primarily assists the Senior Consultant with estimating and scheduling jobs.

Foreman 3-6 Years
As a Foreman, you will manage multiple jobs, multiple crews, and be a knowledge base of basement waterproofing design and installation.

Senior Consultant 3-6 Years
Senior Consultants work directly with the homeowner and the Senior Foreman on managing all aspects of the project.

Senior Foreman 5-8 Years
The Senior Foreman is the highest rank in installation management. This position requires the best project and people management, along with installation mastery, special certifications and more.

Vice President 5-8 Years
Vice President level work requires experience, business acumen, passion, and a complete understanding of every aspect of running the business.
